

# Interior Heating

Dynatherm Interior Heating is perfect for every home. The heat source blends in with any style of decor and radiates cosy warmth. Whereas Ceiling Heating Cassettes are discreet, panels (type Interior) can be chosen as a design element.

All heating units are made of 0.8 mm galvanized sheet metal and are given their finishing touch in the powder coating line on our premises.

Dynatherm Interior Heating is available in a variety of sizes and specifications:

Item No.	Product	Colour	Power [W]	Dimensions [cm]	Weight [kg]
